WORK EXPERIENCE

Sr. Software Developer-Intellisys IT Solutions Private Limited **Nov 2024 - Present**

Took ownership of frontend development and feature delivery in a fast-paced startup environment, driving implementation from requirements to release. Worked closely with founders, product, and QA teams to ship features quickly while maintaining code quality. Mentored junior developers through hands-on guidance and code reviews, helping the team scale development speed and reliability.

PROJECTS

Financial Trading Support Platform **5 Months**

Developed a React-based financial support platform integrated with MT5 APIs to display trading charts, bot signals, and trading history, with wallet management and admin-approved transactions.
Tech Stack: React.js, JavaScript, HTML, CSS, REST APIs, Node.js (basic), MongoDB (basic)

Vehicle Services & Solutions Platform (Freelance) **4 Months**

Developed the React frontend for a vehicle service booking platform, implementing UI development and integration with Django REST APIs for garage listings, vehicle-based pricing, and service booking options.
Tech Stack: React.js, JavaScript, HTML, CSS, REST APIs, Django (backend)
